

**Salary: £16.5k**

**Job Title: Apprentice Engineer**  
**Based at: Haverfordwest Creamery**

Does a career as an engineer, being part of a dynamic team in a fast-paced manufacturing environment excite and enthuse you? First Milk has the answer.

We have come through significant change recently and now have a fantastic opportunity for the right person to join our Haverfordwest Creamery engineering team as an apprentice engineer where you can play your part in creating a sustainable dairy industry for the future.

The successful candidate will study a Level 3 Maintenance Engineering Apprenticeship with Pembrokeshire College for three years working towards achieving a City & Guilds diploma. In addition to one-day-a-week college release, the successful candidate will join our team of highly motivated engineers where you will gain fantastic on-the-job learning.

Among the engineering topics you will study at college, alongside other like-minded individuals from Welsh food and drink businesses are:-

- Engineering maintenance and best practice
- Electrical maintenance in food and drink operations
- Fluid power systems
- Thermodynamics
- Material science

If you are willing to work hard, show commitment, passion and curiosity and want a career rather than just a job, then we want to hear from you.

Candidates should have previously attained an HNC in Electrical or Mechanical Engineering or Level 3 in Electrical or Mechanical Engineering or equivalent and have a minimum of a GCSE (or equivalent) in both maths & physics at Grade B or above.

Due to shift working, there is a minimum age requirement for this role and therefore to be eligible you must be 18 by 1st September 2019.

If you want to join our great team, please submit your CV to [recruitment@firstmilk.co.uk](mailto:recruitment@firstmilk.co.uk)

**The closing date for applications is 14<sup>th</sup> June 2019 and we will be holding the Assessment Centre at our Haverfordwest Creamery at the end of June.**
