

Safety, Health & Environment Manager Haverfordwest Creamery

First Milk is a wholly British farmer-owned dairy co-operative with a vision to create value for members by delivering long-term prosperity in the form of success, profitability, security and wellbeing.

Owned by the family farms that supply us with milk and invest capital in the business, we produce award-winning cheddar, regional cheeses and dairy ingredients, as well as marketing fresh raw milk to many other UK dairy processors.

We work together as one team, with a relentless focus on efficiency and quality, to deliver competitive total returns to our farmer members. We put customers at the heart of our business, creating value through strong, long-term partnerships.

We're currently looking for a Safety, Health & Environment (SHE) Manager to join our team at our Haverfordwest Creamery on a full-time basis.

The Benefits

- Competitive salary
- 26 days' holiday plus Bank Holidays
- Pension

If you are a proven Health and Safety or Environmental Manager, this is a fantastic opportunity to develop your career with our industry-leading company.

Everything we do is focused on delivering dairy prosperity for everyone in our business. For our colleagues, this means providing rewarding careers, with competitive pay and conditions in a safe and supportive working environment. That's where you come in.

We are receptive to change and encourage everyone to make a difference, celebrating success and working as one team.

If you are keen to join a collaborative and successful team and help us make our workforce safer, we want to hear from you!

The Role

As the Safety, Health & Environment (SHE) Manager, you will ensure staff follow key health and safety and environmental practice and procedures within our production environment.

Helping maintain a safety for staff and visitors, you will make sure that Creamery staff are sufficiently knowledgeable about, and conform to, legislation to ensure our operations are compliant.

Taking into account SHE best practice and legislation, you will provide up-to-date advice, guidance and support to employees and the Management Team to maximise SHE capabilities on our site.

Additionally, you will manage and champion programmes that develop SHE cultures and behaviours. Working in conjunction with the Leadership Team, you will develop and deliver plans to improve our Safety, Health and Environment performance.

Your role will also involve:

- Managing site SHE budgets
- Investigating and resolving SHE accidents and incidents
- Ensuring continuous alignment with the best available techniques and insurance requirements

About You

To be considered as a Safety, Health & Environment (SHE) Manager, you will need:

- Experience working in a Health and Safety or Environmental Manager position
- Demonstrable experience of coaching and influencing colleagues at all levels of the business
- Excellent communication skills
- The ability to have both an open-minded and decisive approach
- Good organisational and prioritisation skills
- Proficient in IT, including MS Office

A Nebosh Diploma or equivalent would be beneficial to your application, as would an IMEA certificate or equivalent. A certified training qualification or equivalent experience would also be advantageous, as would experience within a manufacturing environment.

So, if you're seeking your next challenge, please apply via email to:
